CITRINE GLOBAL, CORP.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

NOTE 1 - GENERAL

Citrine Global, Corp. (“Citrine Global” or the “Company”) was incorporated under the laws of the State of Delaware on May 26, 2010. The Company’s common stock is traded in the United States on the OTCQB market under the ticker symbol “CTGL.”

On June 3, 2020 the Company established a wholly owned new Israeli subsidiary: CTGL – Citrine Global Israel Ltd, (the “Israeli Subsidiary”).

On July 21, 2020, the Israeli Subsidiary began to work with certain Company shareholders, Beezz Home Technologies Ltd. (“Beezzhome”), in which Ora Elharar Soffer, the Company’s chairperson and CEO holds shares, and Golden Holdings Neto Ltd., in which Ilan Ben-Ishai, a former director of the Company, holds shares, have been working towards establishing an Operational Innovation Center focuses on plant based wellness and pharma products and solutions. The Company’s Board of Directors approved the Israeli Subsidiary to proceed with preparations for entering into an agreement to incorporate a new company, named Cannovation Center Israel Ltd. (“Cannovation”), with Beezz Home Technologies Ltd. and Golden Holdings Neto Ltd., and to accept limitations on the Israeli Subsidiary’s rights in the Cannovation Center if and as mandated under Israeli regulations on the involvement of foreign entities. On August 20, 2020, the Israeli Subsidiary, Beezz Home Technologies Ltd., and Golden Holdings Neto Ltd. incorporated Cannovation. Israeli Subsidiary holds 60% of Cannovation’s shares, while each of Beezz Home Technologies Ltd. and Golden Holdings Neto Ltd. holds 20% of its shares.

On August 4, 2020, the Board of the Company approved for the Company and its Israeli Subsidiary to proceed with preparations for investing in iBOT Israel Botanicals Ltd., (an affiliate) an Israeli nutritional supplements’ company developing and manufacturing botanical formulas and nutritional supplements for custom & contract manufacturing for leading botanical companies (“iBOT”). The principal shareholders and control persons of iBOT are the Company’s Chief Executive Officer, President and Chairperson. iBOT has a manufacturing facility for a wide range of botanical formulations. iBOT’s manufacturing facility is approved by the Israeli Ministry of Health and is GMP-certified, ISO 9001-certified and HACCP certified by IQC. On August 4, 2020, the Board of Directors approved for the Company and Citrine Global Israel to proceed with preparations for investing in iBOT. On August 9, 2021, through the 60% owned subsidiary Cannovation Center Israel, the Company entered into an agreement with iBOT pursuant to which iBOT agreed to manufacture a line of nutritional supplements for Cannovation Center Israel, including packaging and storage.

In November 2021, iBOT granted to Citrine Global Group, a pre-emption right to any equity or equity linked securities that iBOT proposes to issue to an unrelated third party with aggregate gross proceeds to iBot exceeding \$1 million or which will result in a change in control in iBOT following such issuance, then iBOT is to give to the Citrine Global Group written notice of such proposed issuance and the relevant terms thereof and the Citrine Global Group shall have ten (10) days thereafter to determine if it elects to purchase a minimum of 51% of the proposed issuance on the price and other terms specified in the notice sent by iBOT (the “Pre-Emption Right”). If the Citrine Global Group elects to exercise the Pre-Emption Right, such purchase is to take place at no more than 90 days following the expiration of the 10 day notice period to the Citrine Global Group. Any iBOT securities of the Pre-Emption Right that Citrine Global Group elects to not purchase are to be sold by not later than 90 days following the end of the Citrine Global Group’s notice period and if such shares are not sold to such third party within the 90 day period, the Pre-Emption right shall apply to any subsequent proposed issuance. The preemption right does not apply to certain specified exceptions.

In November 2022 the Company and iBOT agreed to extend to March 31, 2023 the pre-emption right previously granted to the Company with respect to any equity or equity linked securities that iBOT proposes to issue to an unrelated third party with aggregate gross proceeds to iBOT exceeding \$1 million or which will result 51% in a change in control in iBOT following such issuance. In March 2023, the Company and iBOT agreed to further extend to December 31, 2023 such right.

Stock split

On June 10, 2022, certain of the Company's stockholders representing more than 50% of the Company's outstanding share capital (the "Majority Consenting Stockholders") approved an amendment to the Company's Certificate of Incorporation (the "Reverse Stock Split Certificate of Amendment") in order to effect a reverse stock split of the Company's common stock pursuant to a range of between 50-to-1 and 700-to-1 (the "Reverse Stock Split"). Pursuant to the Reverse Stock Split, each fifty or seven hundred shares of common stock (or any whole number within such range), as shall be determined by the Board at a later time, will be automatically converted, without any further action by the stockholders, into one share of common stock. No fractional shares of common stock will be issued as the result of the Reverse Stock Split. Instead, each stockholder of the Company will be entitled to receive one share of common stock in lieu of the fractional share that would have resulted from the Reverse Stock Split. The Reverse Stock Split Certificate of Amendment will be effective upon receipt of approval from the Financial Industry Regulatory Authority ("FINRA") and the filing with the Secretary of the State of Delaware, both of which were not completed as of the date of the approval of the financial statements.

Financial support

The Company has not yet to generate revenues and is dependent on raising funds from its current shareholders or from other sources. On April 13, 2021, Citrine S A L, on behalf of itself and its affiliates and related parties, has furnished the Company with an irrevocable letter of obligation to financially support the Company until June 30, 2022. On March 17, 2022, Citrine S A L Investment & Holding Ltd. extended this support through June 30, 2023. On August 14, 2022, Citrine S A L Investment & Holding Ltd. further extended this support through June 30, 2024.

In addition, on March 6, 2023 Cannovation and S.R. Accord Ltd., an Israeli company ("Lender"), entered into an 18-month credit facility agreement (the "Credit Facility") pursuant to which Lender has committed to fund Cannovation in an aggregate amount of 3,000,000 NIS (approximately \$857,000), as needed. At the time of each draw down, Cannovation and Lender will determine the maturity date of the loan. All amounts drawn under the Credit Facility will bear interest at an monthly rate of 1.7%. Cannovation has the right to pre-pay the entire amount outstanding under the Credit Facility at any time. As security for any loans under the Credit Facility, Cannovation granted the Lender a first priority lien on its rights to the 125,000 sq ft (11,687 sq meters) of industrial land in Yerucham. The lien will become effective only if Cannovation utilizes the Credit Facility. If the market value of the Premises is less than the amount outstanding under the Credit Facility, then Lender will be entitled to additional security including additional shares of Citrine Global common stock, on such terms and conditions as the parties may agree. As additional security for any payments due to Lender, (i) the Israeli Subsidiary, (ii) Beezhome and (iii) Netto Holdings, an unaffiliated entity under the partial control of Ilan Ben Ishay, a director on the board of Cannovation, as well as each of Ms. Elharar Soffer and Mr. Ben Ishay have, in their personal capacities, provided guarantees for the repayment of any amounts that may be owing to Lender under the Credit Facility. The Company, CTGL – Citrine Global Israel Ltd. and Cannovation have agreed to indemnify Ms. Elharar Soffer and Mr. Ben Ishay for any losses they incur as a result of the personal guarantees.

On March 7, 2023, the Company issued to the Lender and a consultant 3,232,016 shares of the Company's common stock as a commitment fee in respect of the provision of the Credit Facility (valuated at \$123 thousand). As of the date of this report, Cannovation utilized \$51,000 of the credit line and has requested from the Lender an additional drawdown of \$120,000 which is as of the date of this report is being processed.

The Company has no significant firm commitments that require it to remit cash and can control the level of expenses it incurs. Based on the Company's current cash balances, and the access to the Credit Facility noted above, management believes the Company will have sufficient funds for its plans for the next twelve months from the issuance of these financial statements. As the Company is embarking on its business plan, it is incurring losses. It cannot determine with reasonable certainty when and if it will have sustainable profits.

CITRINE GLOBAL, CORP.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PRESENTATION

Unaudited Interim Financial Statements

The accompanying unaudited condensed consolidated financial statements include the accounts of the Company and its subsidiary, prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and with the instructions to Form 10-Q. In the opinion of management, the financial statements presented herein have not been audited by an independent registered public accounting firm but include all material adjustments (consisting of normal recurring adjustments) which are, in the opinion of management, necessary for a fair statement of the financial condition, results of operations and cash flows for the six and three months ended June 30, 2023. However, these results are not necessarily indicative of results for any other interim period or for the year ended December 31, 2023.

Certain information and footnote disclosures normally included in financial statements in accordance with generally accepted accounting principles have been omitted pursuant to the rules of the U.S. Securities and Exchange Commission (“SEC”). These financial statements should be read in conjunction with the financial statements and notes thereto contained in the Company’s Annual Report on Form 10-K for the year ended December 31, 2022.

Use of Estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of expenses during the reporting periods. Significant estimates include fair value estimates of derivative liabilities and assets. Actual results could differ from those estimates.

Fair value

Fair value of certain of the Company’s financial instruments including cash, accounts payable, accrued expenses, and other accrued liabilities approximate cost because of their short maturities. The Company measures and reports fair value in accordance with Accounting Standards Codification (“ASC”) 820, “Fair Value Measurements and Disclosure,” which defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosures about fair value measurements.

Fair value, as defined by ASC 820, is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of an asset should reflect its highest and best use by market participants, principal (or most advantageous) markets, and an in-use or an in-exchange valuation premise. The fair value of a liability should reflect the risk of nonperformance, which includes, among other things, the Company’s credit risk.

Valuation techniques are generally classified into three categories: (i) the market approach; (ii) the income approach; and (iii) the cost approach. The selection and application of one or more of the techniques may require significant judgment and are primarily dependent upon the characteristics of the asset or liability, and the quality and availability of inputs. Valuation techniques used to measure fair value under ASC 820 must maximize the use of observable inputs and minimize the use of unobservable inputs. ASC 820 also provides fair value hierarchy for inputs and resulting measurement as follows:

CITRINE GLOBAL, CORP.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (unaudited)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF RESENTATION (cont.)

Fair value (cont.)

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities.

Level 2: Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data for substantially the full term of the assets or liabilities; and

Level 3: Unobservable inputs for the asset or liability that are supported by little or no market activity, and that are significant to the fair values.

Fair value measurements are required to be disclosed by the level within the fair value hierarchy in which the fair value measurements in their entirety fall. Fair value measurements using significant unobservable inputs (in level 3 measurements) are subject to expanded disclosure requirements including a reconciliation of the beginning and ending balances, separately presenting changes during the period attributable to the following: (i) total gains or losses for the period (realized and unrealized), (ii) segregating those gains or losses included in earnings, and (iii) a description of where those gains or losses included in earning are reported in the statement of operations.

The Company's financial assets and liabilities that are measured at fair value on a recurring basis by level within the fair value hierarchy are as follows:

Credit line issuance costs

Costs associated with entering into a revolving line of credit or revolving-debt arrangement are costs incurred in exchange for access to capital. These fees are paid regardless of whether the funds are ever drawn down. Such costs are recorded as such on the balance sheet as prepaid expenses. Upon drawing down a portion of the credit line, the applicable portion of the costs related to that draw down is presented as a direct deduction from the carrying value of the debt when drawn and amortized as finance expenses using the effective interest method.

NOTE 4 - INVESTMENTS VALUED UNDER THE MEASUREMENT ALTERNATIVE

- A. On December 30, 2022, the Company, MyPlant Bio Ltd., a company incorporated under the laws of the State of Israel (“MyPlant”), Cannasoul Analytics Ltd., a company incorporated under the laws of Israel (“Cannasoul”), and PurPlant Inc., a company duly incorporated under the laws of Canada (“PurPlant”) (Cannasoul and PurPlant are collectively referred to as the “Shareholders”), and Professor Dedi Meiri, an Israeli individual (“Prof Meiri”) entered into the Share Purchase and Option Agreement (the “Share Purchase and Option Agreement”) for the purchase by the Company of up to 55% of MyPlant’s issued and outstanding share capital on a fully diluted basis

The Company purchased from the Shareholders an aggregate of 15,211 ordinary shares of MyPlant (the “MyPlant Shares”) representing, on a fully diluted basis, 10% of the outstanding MyPlant Shares, in consideration for the payment of \$444,444 by the issuance by the Company to the selling Shareholders of an aggregate of 9,259,250 shares of the Company’s common stock.

In addition, under the Share Purchase and Option Agreement, the Company granted an option by the MyPlant shareholders to purchase an additional 35% of MyPlant Shares, on a fully diluted basis (the “Shareholders Option”), in consideration of \$1,555,556 payable by the issuance of up to 32,407,417 shares of our common stock to the MyPlant shareholders, and a separate option by MyPlant to purchase an additional 10% of the MyPlant Shares, on a fully diluted basis (the “MyPlant Option”), in consideration of \$444,444, which is payable, in the Company’s sole discretion, in cash or in the issuance to MyPlant of up to 9,259,250 shares of our common stock.

Said options are exercisable through September 30, 2023 (the “Option Expiry Date”). If both the shareholders Option and the Company Options are exercised, the Company will hold 55% of MyPlant Shares, on a fully diluted basis. Under the Share Purchase and Option Agreement, the Company is authorized to continue its due diligence through the Option Expiry Date. The number of shares is subject to adjustment in respect of any stock split or other recapitalization of the Company.

The transactions under the Share Purchase and Option Agreement are based on a MyPlant company valuation of approximately \$4.45 million. The Company is authorized at any time on or before the Option Expiry Date to obtain an independent third-party valuation of MyPlant. If it is determined by such third party valuation that the MyPlant valuation is less than \$4.45 million then the consideration payable in respect of the exercise price of the options will be accordingly adjusted, provided however that in any case MyPlant’s valuation in the transaction shall not be below US\$1,000,000.

The options to purchase MyPlant shares were also accounted using the measurement alternative. Since the options’ value are subject to the changes in Citrine shares’ value, there are indicators to a change in the options’ value at each reporting date, and therefore the following valuation method was implemented.

NOTE 4 - INVESTMENT VALUED UNDER THE MEASUREMENT ALTERNATIVE (continue)

Fair Value Proportional Allocation

The Company estimated the fair value of Shareholders Option using the Monte Carlo option pricing model using the following weighted average assumptions:

	December 30, 2022	June 30, 2023
Dividend yield	0%	0%
Risk-free interest rate	4.71%	5.27%
Expected term (years)	0.78	0.25
Company's volatility	114.80%	36.97%
MyPlant share price (U.S. dollars)	10.04	10.04
MyPlant volatility	55.29%	67.55%

The fair value of the Shareholders Option as of December 30, 2022 and June 30, 2023 was estimated at \$291 thousands and \$355 thousands, respectively.

Based on the above, the fair value proportion allocation as of December 30, 2022 was as follows:

	December 30, 2022
Shareholders option	\$ 291
MyPlant's shares	153
	\$ 444

Under the Share Purchase and Option Agreement, MyPlant granted to the Company the exclusive right to utilize MyPlant's activities as specified in the agreement, including without limitation, the screening platforms using cell line models for certain diseases and conditions to detect effective plant materials and/or other substances for the treatment of these conditions and a and a right of first opportunity to commercialize intellectual property developed by MyPlant that is in the Company's (or its subsidiaries') field of business, provided that, if by December 31, 2023 the Company does not exercise either of the Shareholders Option or the MyPlant Option and/or enter into a service agreement with MyPlant, then the exclusive rights shall terminate but the right of first opportunity to commercialize intellectual property developed by MyPlant shall continue thereafter until June 31, 2024, unless such rights have been extended beyond such date under the terms to be agreed in the service agreement entered into by the Company and Citrine Global. In addition, under the Share Purchase and Option Agreement, Cannasoul, MyPlant's majority Shareholder, agreed to not compete with MyPlant's activities.

The Company was granted observer rights on the MyPlant board of Directors (the "MyPlant Board"). Following the exercise by Citrine Global of the Shareholders Option, the MyPlant Board shall be comprised of four (4) directors of which MyPlant will be authorized to designate two of such directors.

NOTE 5 – CONVERTIBLE NOTES

- A. On January 30, 2023 the Company and each of Citrine High Tech 7 LP (“LP 7”), Citrine 8 LP (“LP 8”) and Citrine 9 LP (“LP 9”; together with LP 7 and LP 8, the “Lending LP”), the lending entities under and parties to the Convertible Note Purchase Agreement entered into by the Company and several related parties in April 2020, as subsequently amended (the “CL Agreement”), have entered into an agreement (the “Agreement”) pursuant to which they have agreed to extend the maturity date on all outstanding convertible loans in the principal amount of \$1,800,000 under the CL Agreement to May 31, 2024.

In addition, under the Agreement the Company and the Lending LPs have also agreed that if the Company’s common stock is listed on the Nasdaq Stock Market, then the Company, in its sole discretion, shall determine to convert, in whole or in part, the outstanding amount of the above mentioned notes to shares of the Company’s common stock at a conversion price equal to the price paid by the public investors for the common stock in the offering accompanying the listing.

The Company concluded that the above mentioned change in terms constitutes a trouble debt restructuring, due to its financial condition and the relief that the abovementioned changes provided.

Therefore, the Company concluded that the change in terms should be accounted for as a modification. A new effective interest rate was established based on the carrying value of the debt and the revised cash flows.

On September 30, 2022, the Company received a loan from Citrine S A L Hi Tech 7 LP, an Israeli limited partnership and an affiliated entity, in the principal amount of \$80,000. The loan bear interest at 12% per annum and was originally scheduled to mature on December 15, 2022, but the maturity date was extended to May 31, 2024. The principal and interest payment on the loan are to be made in New Israeli Shekels (NIS) at the exchange rate which was in effect on the date on which the loan was advanced.

On May 9, 2023, the Company’s Board determined to provide that until the earlier of the satisfaction in full of the convertible loans or the termination of the exercise period of the warrants for an aggregate of 62,178,554 shares previously issued to the Lending LPs (the “Warrants”), if the Company’s common stock were to be listed on the Nasdaq Stock Market and the per share public price of the offering accompanying such listing is less than the then current exercise price of the Warrants, then the Warrant exercise price shall be adjusted to that of the public offering price, provided that if such listing and accompanying offering do not occur by June 30, 2023, then the exercise price of the Warrants shall remain at its then current exercise price or may be adjusted to a lower exercise price as determined by Company’s Board and in agreement with the Lending LPs. As the offering has not been achieved by June 26, 2023, the Board decided that the Warrant exercise price shall remain unchanged at \$0.05 and also provide that the upon the implementation of the reverse split, the Warrants per share exercise price would be unaffected by the reverse split and would remain at \$0.05 though the number of warrant shares would be subject to the reverse stock split.

- B. On January 30, 2023 Citrine S A L Hi Tech 7 LP agreed to change the terms of this loan, which amounted to \$83,000 (including accrued interest) such that such terms shall be adjusted on a pro-rata basis, to those terms applicable to the Company’s convertible notes then outstanding under the Convertible Note Agreement (as detailed in note 5 A above).

As provided for under the terms of the Convertible Note Agreement, Citrine 7 will be issued 6,666,667 warrants for shares of common stock, where the Series A and B warrants are exercisable through August 9, 2027 at an exercise price of \$0.05 per share.

The Company concluded that the change in term does not constitute a trouble debt restructuring. Thereafter, the Company applied the guidance in ASC 470-50, Modifications and Extinguishments. The accounting treatment is determined by whether terms of the new debt and original debt are substantially different.

Since the original and new debt instruments are substantially different, the original debt was derecognized and the new debt was recorded at fair value, with the difference recognized as an extinguishment loss.

The extinguishment resulted in a loss of \$266 thousands, included in the statements of operations as “Expenses related to convertible loan terms”.

The components of the new loan were valued as follows:

Conversion feature

In accordance with ASC 815-15-25 the conversion feature was considered a liability classified embedded derivative instrument, and is to be recorded at its fair value separately from the convertible notes, within non-current liabilities in the Company’s balance sheet. The conversion component is then remeasured at fair value at each reporting period with the resulting gains or losses shown in the statements of operations.

NOTE 5 – CONVERTIBLE NOTES

The fair value of the convertible component was estimated by third party appraiser as weighted average of the two possible scenarios of the total convertible notes amount conversion (20% probability for scenario 1 and 80% probability for scenario 2):

The scenario in which the convertible loan would be converted prior to its maturity (scenario 1) was estimated by the appraiser using the Black-Scholes option pricing model, to compute the fair value of the derivative and to market the fair value of the derivative at each balance sheet date. The following are the data and assumptions used as of issuance dates and as of the balance sheet date:

	January 30, 2023
Dividend yield (%)	0%
Risk-free interest rate (%)	4.56%
Expected term (years)	1.33
Volatility	123.5%
Share price (U.S. dollars)	0.044
Exercise price (U.S. dollars)	0.05

The scenario in which the Company would raise at least \$5 million prior to conversion of the convertible loan (scenario 2) was estimated by the appraiser at no fair value since it was estimated that along with such raise the convertible loans would be converted at market price.

The fair value of the convertible component was estimated by the third-party appraiser after giving effect to the weighted average of the two possible scenarios as of issuance dates was \$8 thousands.

Warrants

The fair value of the warrants as of January 30, 2023 was estimated at \$268 thousands using the Black-Scholes option-pricing model and is presented within the consolidated statements of changes in shareholders equity (deficit).

The following are the data and assumptions used:

Warrants A

Dividend yield (%)	0%
Risk-free interest rate (%)	3.75%
Expected term (years)	4.36
Volatility	160.5%
Share price (U.S. dollars)	0.044
Exercise price (U.S. dollars)	0.05
Fair value of the conversion feature (U.S. dollars in thousands)	134

Warrants B

Dividend yield (%)	0%
Risk-free interest rate (%)	3.75%
Expected term (years)	4.36
Volatility	160.5%
Share price (U.S. dollars)	0.044

NOTE 6 – OTHER EVENTS DURING THE PERIOD

- A. On March 6, 2023 Cannovation and S.R. Accord Ltd., an Israeli company (“Lender”), entered into an 18-month credit facility agreement (the “Credit Facility”) pursuant to which Lender has committed to fund Cannovation in an aggregate amount of 3,000,000 NIS (approximately \$857,000), as needed. At the time of each draw down, Cannovation and Lender will determine the maturity date of the loan. All amounts drawn under the Credit Facility will bear interest a an monthly rate of 1.7%. Cannovation has the right to pre-pay the entire amount outstanding under the Credit Facility at any time. As security for any loans under the Credit Facility, Cannovation granted the Lender a first priority lien on its rights to the 125,000 sq ft (11,687 sq meters) of industrial land in Yerucham (the “Premises”). The lien will become effective only if Cannovation utilizes the Credit Facility. If the market value of the Premises is less than the amount outstanding under the Credit Facility, then Lender will be entitled to additional security including additional shares of Citrine Global common stock, on such terms and conditions as the parties may agree. As additional security for any payments due to Lender, (i) the Israeli Subsidiary, (ii) Beezzhome and (iii) Netto Holdings, an unaffiliated entity under the partial control of Ilan Ben Ishay, a director on the board of Cannovation, as well as each of Ms. Elharar Soffer and Mr. Ben Ishay have, in their personal capacities, provided guarantees for the repayment of any amounts that may be owing to Lender under the Credit Facility. The Company, CTGL Citrine Global Israel Ltd. and Cannovation have agreed to indemnify Ms. Elharar Soffer and Mr. Ben Ishay for any losses they incur as a result of the guarantee.

During the period of six month ended June 30, 2023, Cannovation utilized \$51,000 out of the credit line and, on August 1, 2023, based on the determination of the Cannovation board of directors, Cannovation requested from the Lender an additional drawdown of approximately \$120,000 which is as of the date of this report is being processed. See Note 8

On March 7, 2023, the Company issued to the Lender 2,154,677 shares of the Company’s common stock a commitment fee in respect of the provision of the Credit Facility. The Company determined the value of the shares issued at \$82,000 based on the share price at the agreement date of which \$5,000 were recorded as finance expenses and the remaining were recorded as pre-paid expenses.

On March 18, 2023, the Company issued to a consultant 1,077,339 shares of the Company’s common stock in respect of the provision of the Credit Facility. The Company determined the value of the shares issued at \$41,000 based on the share price at the agreement date of which \$3,000 were recorded as finance expenses and the remaining were recorded as pre-paid expenses.

- B. On May 25, 2023, the Company issued a consultant 9,000,000 shares of the Company’s common stock in respect of IRPR services. The Company determined the value of the shares issued at \$333,000 based on the share price at the agreement date of which \$111,000 were recorded as marketing, general and administrative expenses and the remaining were recorded as pre-paid expenses.
- C. Previously on May 9, 2023, the Company’s Board determined to provide that until the *earlier* of the settlement in full of the convertible loans or the termination of the exercise period of the warrants for an aggregate of 62,178,554 shares previously issued to such convertible loan holders (the “Warrants”), if the Company’s common stock were to be listed on the Nasdaq Stock Market and the per share public price of the offering accompanying such listing is less than the then current exercise price of the Warrants, then the Warrant exercise price shall be adjusted to that of the public offering price, *provided that* if such listing and accompanying offering did not occur by June 30, 2023, then the exercise price of the Warrants shall remain at its then current exercise price or may be reduced to a lower exercise price as determined by Company’s Board and in agreement with the loan holders. **On June 26, 2023**, our Board decided that the Warrant exercise price remain unchanged at \$0.05 and also provide that the upon the implementation of recapitalization of the Company, including a reverse split, the Warrant per share exercise price would be unaffected by the reverse split and would remain at \$0.05 though the number of warrant shares would be subject to the reverse stock split.

Leveraging technology and research, we are focused on developing a products portfolio based on rigorous scientific research ranging from synergistic botanicals, herbal extract, tinctures, medicinal mushrooms together with plant extracts, vitamins, minerals, botanical formulations from seeds, roots, bark, fruits, and a wide variety of plants that contain substances with health-supportive effects. Such supportive effects include, but are not limited to, enhancing oral care, anti-inflammatory properties, relaxation, sleep enhancement, energizing, mood and body balancing, alleviating side effects, and more.

We have more than 100 plant-based formulations and product lines under the brands **GreenFeels™** targeting the nutritional supplements market that is expected to reach \$625 billion by 2030⁴.

Joint venture with iBOT Israel Botanicals Ltd.

- We have strategic joint venture alliance and manufacturing agreements with iBOT Israel Botanicals Ltd.
- iBOT is a technology company that specializes in botanical R&D natural products & solutions and nutritional supplements.
- iBOT has developed hundreds of formulas and innovative portfolio products that are crafted to deliver optimal health benefits and are backed by extensive scientific research and testing.
- iBOT owns IP and know-how for developing and manufacturing botanical products in that includes a GMP-certified manufacturing facility approved by the Israeli Ministry of Health for manufacturing nutritional supplements in various delivery platforms that include liquid formulations in the form of syrups, tinctures, and oils, and dry formulations in the form of tablets, powders, capsules, sachets and more.
- We are developing and manufacturing our nutritional supplements product lines, including the GreenFeels™ & Green Side by Side™, with iBOT.
- iBOT, an affiliated company, granted to Citrine Global and its subsidiaries through December 31, 2023 a pre-emption right and an option to acquire up to 51% of iBOT.

Developing & Bringing Plant-Based Wellness & Pharma Products to Market

Our strategy to add value to our product lines and position our company with a competitive edge in the Wellness market and the Nutritional Supplements.

We are basing our efforts on technologies to create research and innovation, developing plant-based solutions which include products for improving quality of life and complementary solutions for balancing selected side effects caused by using medicines, treatments, or an unbalanced lifestyle.

Acquisition of MyPlant Bio Ltd.

We purchased a 10% equity interest (on a fully diluted basis) in MyPlant Bio Ltd and Citrine Global has an option to purchase an additional 45% of MyPlant equity.

MyPlant Bio Ltd, specializes in botanical drug development and owns certain know-how and intellectual property rights that include a developed platform and cell-disease models to screen plant extracts to understand their biological effect, and has screening platforms using cell line models for certain diseases and conditions to detect effective plant materials and/or other substances for the treatment of these conditions. MyPlant was founded by Cannasoul Analytics, a leading botanical research and development company and Prof. Dedi Meiri from the Faculty of Biology at the Israeli Institute of Technology (Technion) and a member of the Technion Integrated Cancer Center. Citrine Global's acquisition of MyPlant is in line with the Citrine Global's strategy to be a leader in plant-based wellness and pharma solutions.

We view the acquisition of MyPlant as an opportunity to advance our wellness products with MyPlant's scientific research as to the effects of specific plant substances and compounds on different wellness and medical conditions.

As the worldwide use of botanical nutritional supplements and botanical drugs continues to grow, the need for scientific evaluation of the safety and efficacy of these products is becoming ever greater. We are targeting and positioning our product lines for the nutritional supplements market that is expected to reach \$625 billion by 2030⁵.

Revenue & Growth Strategy

We plan to expand our distribution efforts in the wellness industry and build a worldwide network of local teams and partners, as well as doing mergers & acquisitions of health and wellness companies that already have sales and distribution infrastructures. Initially, we are planning to build an infrastructure for sales and business development with local teams in North America and Europe.

Our target Market potential

The wellness market is booming, with health-conscious consumers spending more on natural products ranging from nutraceuticals, natural superfoods, natural beverages, natural cosmetics, and plant-derived drugs.

- The nutritional supplements market was \$314 billion in 2020 and is expected to reach \$624.7 billion by 2030⁶.
- The superfoods market was \$172 billion in 2020 and is expected to reach \$287.7 billion by 2027⁷.
- The botanical and plant-derived drug market was \$26 billion in 2018 and is expected to reach \$53 billion by 2026⁸.
- The natural cosmetics market was \$15 billion in 2021 and is expected to reach \$21.5 billion by 2028⁹.

Our mission is to leverage the power of plant-based solutions from nature to help improve people's health and quality of life.

Our IP Strategy and R&D Roadmap include:

- Developing wellness product portfolio across the range from scientific and research-based plants, such as herbal extracts, medicinal mushrooms, and other natural ingredients.
- Expanding our current product lines and registering the products for worldwide regulatory approvals.
- Developing complementary products for balancing selected side effects caused by medicines, treatments, aging, stress, or an unbalanced lifestyle.
- Researching and developing pharma solutions with the mission of developing plant-based medicines and botanical drugs.
- Building our patent portfolio, conducting clinical trials, and advancing our products through innovation and technology.
- We filed provisional patent applications in the field of Balancing Side Effects in the United States Patent and Trademark Office (USPTO): Patent Application No. 63/418,046, and Patent Application No. 63/388,361 for compositions and methods for balancing side effects associated with the use of medicines, treatments, aging and unbalanced or unhealthy lifestyle and balancing side effects related to symptoms in the oral cavity.

About Side Effects Caused by Using Medicines, Treatments or an Unbalanced Lifestyle

Side effects are unexpected reactions which may result from using medicines, treatments and an unbalanced lifestyle. There are common side effects, such as dryness in the oral cavity (xerostomia), headaches, dizziness, drowsiness, fatigue, nausea, vomiting, lack of concentration, and impaired appetite that are associated with the use of medicines and treatments¹⁰.

The public health impact of harms associated with medicines and treatments is a growing area of investigation, given the expanding pharma industry and widespread availability of drugs and different medical treatments around the world. Current evidence suggests that use of medicines is associated with side effects. Exploring the relationship between drug side-effects and therapeutic indications demonstrates that 69% of drugs have between 10 and 100 different side effects¹¹.

¹¹ P. Zhang, F. Wang, J. Hu, and R. 2013, Exploring the Relationship Between Drug Side-Effects and Therapeutic Indications, PubMed Central, PMCID: PMC3900166; PMID: 24551427

Treatment of side-effects, or adverse drug reactions, has become a healthcare concern¹². The new market of Pharmacovigilance, also known as drug safety – the pharmaceutical science relating to the collection, detection, assessment, monitoring, and prevention of adverse effects with pharmaceutical products – is developing and expected to reach \$12.48 Billion in 2027. Driving this are increasing public awareness and demand for safer medications and increasing government initiatives to promote drug safety around the globe¹³.

We believe that natural plant-based products show great promise in improving quality of life and can be used as complementary products to balance side effects. Antibiotics and probiotics are an excellent use case. Antibiotics are important for treating bacterial infections; however, they can sometimes cause side effects such as diarrhea, liver disease and changes to the gut microbiota. Using probiotics during and after a treatment with antibiotics can help reduce the risk of diarrhea and restore the gut microbiota to a healthy state¹⁴.

Addressing a significant market need, we included in our strategy the development of plant based complementary solutions through wellness as well as clinically developing plant-based pharmaceutical products to address the need to balance selected effects and support people who experience side effects from using medicines, cannabis, and various treatments.

Green Vision Center Production and Innovation Center for Wellness & Plant-based Pharma Products

Green Vision Center is part of our strategy to create end-to-end plant-based solutions covering all the infrastructure, facilities, and activities required for developing, manufacturing, and bringing to market innovative plant-based wellness and pharma products.

Green Vision Center Israel

In February of 2022, we completed the acquisition from the Israel Lands Authority (ILA) of 125,000 square feet (approximately 11,687 square meters) or approximately three acres of industrial land in Yerucham, a city in southern Israel, to build Green Vision Center Israel. Approximately 90% of the acquisition cost was provided by Israeli government programs that encourage industrial development and includes additional grants and tax incentives.

The center is planned to be constructed by a professional project construction company and sub-contractors that will oversee all aspects of the building including interfacing and obtaining all facilities and products relevant licenses and regulatory approvals, the requisite building permits and other required authorizations.

Israel as a Source of Innovation

Our presence in Israel combined with our close contacts with leading universities, researchers and companies empowers us to access the latest technologies, talent, and innovations and bring them to the global market.

We chose to focus on Israel for the following reasons:

- Israel is well positioned as a leader in technology with a critical mass of technology companies, researchers, and scientists¹⁵.
- Our headquarters, our executives and strategic partners are based in Israel, where we have been operating for years and have a strong network with Israeli companies, universities, labs, entrepreneurs, and businesses.
- Israel is considered a pharma powerhouse and a world leader in clinical trials due to its advanced regulatory environment and local experience¹⁶.
- The Israeli government views and supports technological innovation a major growth engine for the Israeli economy and supports it. The government support includes grants for the purchase of equipment, tax incentives, incentives for employing workers, and other benefits as part of a program of the Israeli government to encourage industrial development and benefits for the city of Yerucham.
- We acquired land in the south of Israel, backed by government support, to build the Green Vision Center, a first-of-its-kind production and innovation center for plant-based wellness & pharma products.

Significant Events During the Period

(i) On May 24, 2023, iBOT gave to Citrine Global, Corp. an option, exercisable through the 90th day thereafter, to purchase from iBOT up to 55% of the issued and outstanding capital stock of iBOT, in a fully diluted basis. The exercise of the option is subject to due diligence.

(ii) Previously on May 9, 2023, our Board determined to provide that until the *earlier* of the settlement in full of the convertible loans or the termination of the exercise period of the warrants for an aggregate of 62,178,554 shares previously issued to such convertible loan holders (the “Warrants”), if the Company’s common stock were to be listed on the Nasdaq Stock Market and the per share public price of the offering accompanying such listing is less than the then current exercise price of the Warrants, then the Warrant exercise price shall be adjusted to that of the public offering price, ***provided that*** if such listing and accompanying offering did not occur by June 30, 2023, then the exercise price of the Warrants shall remain at its then current exercise price or may be reduced to a lower exercise price as determined by Company’s Board and in agreement with the loan holders. As the offering has not been achieved by June 26, 2023, the Board decided that the Warrant exercise price remain unchanged at \$0.05 and also provide that the upon the implementation of recapitalization of the Company, including a reverse split, the Warrant per share exercise price would be unaffected by the reverse split and would remain at \$0.05 though the number of warrant shares would be subject to the reverse stock split.

On August 1, 2023, the board of directors of Cannovation, Company majority owned subsidiary, authorized a draw down under the previously disclosed credit facility with S.R. Accord Ltd. the amount of approximately \$120,000 to be utilized for operations. As required under the credit facility, Cannovations's shareholders gave guarantees and each of Ms. Elharar Soffer, our CEO and a director, and Ilan Ben Ishay, a director of Cannovation, gave personal guarantees, for the drawdown. In addition, as required under the credit facility, Cannovation gave a security interest on Cannovation's rights under the development agreement with the Israel Lands Authority with respect to Cannovations's land in Yerucahm, in Southern Israel. As of the date of this report, the draw down request is being processed

Components of Operating Results

The following discussion summarizes the key factors our management believes are necessary for an understanding of our consolidated financial statements.

Revenues

We have not generated any revenues from product sales as of June 30, 2023.

Research and Development Expenses

The process of researching and developing our products is lengthy, unpredictable, and subject to many risks. We expect to continue incurring expenses for the next several years for research and development as we continue to develop products and innovative solutions. We are unable, with any certainty, to estimate either the costs or the timelines in which those expenses will be incurred. Our current development plans focus on the development of plant-based solutions including GreenFeels™ and Green Side by Side Products lines.

Our research and development costs include costs are composed of:

- internal recurring costs, such as personnel-related and consultants costs (salaries, employee benefits, equity compensation and other costs), materials and supplies, facilities and maintenance costs attributable to research and development functions; and
- fees paid to external parties who provide us with contract services, such as preclinical testing, manufacturing and related testing and activities.

Marketing

Marketing expenses consist primarily of salaries, employee benefits, equity compensation, and other personnel-related costs associated with executive and other support staff. Other significant marketing expenses include the costs associated with professional fees to develop our marketing strategy.

General and Administrative Expenses

General and administrative expenses consist primarily of salaries, employee benefits, equity compensation, and other personnel-related costs associated with executive, administrative and other support staff. Other significant general and administrative expenses include the costs associated with professional fees for accounting, auditing, insurance costs, consulting and legal services, along with facility and maintenance costs attributable to general and administrative functions.

Financial Expenses

Financial expenses consist primarily impact of exchange rate derived from re-measurement of monetary balance sheet items denominated in non-dollar currencies. Other financial expenses include bank's fees and interest on long term loans.

Results of Operations

Comparison of the Three Months Ended June 30, 2023 compared to the Three Months Ended June 30, 2022

The following table presents our results of operations for the three months ended June 30, 2023 and 2022

	Three Months Ended

The increase in our marketing, general and administrative expenses is primarily attributable to the increase in our non-cash share-based compensation expenses.

Financing Expenses, Net. Financing expenses, net for the six months ended June 30, 2023 were \$447,000 compared to financing expenses, net \$10,000 for the six months ended June 30, 2022. The increase in financial expense is primarily attributable to finance expenses related to our convertible loans.

Net Loss. Net loss for the six months ended June 30, 2023 was \$1,528,000 and is attributable to the reasons discussed above.

Financial Condition, Liquidity and Capital Resources

At June 30, 2023, we had current assets of \$448,000 compared to total current assets of \$185,000 as of December 31, 2022. The increase is mainly attributed to the increase in other prepaid expenses.

At June 30, 2023, we had a cash balance of \$30,000 compared to the cash balance of \$77,000 as of December 31, 2022.

At June 30, 2023, we had a working capital deficiency of \$1,667,000 as compared with a working capital deficiency of \$1,620,000 at December 31, 2022.

The following table provides a summary of operating, investing, and financing cash flows for the six months ended June 30, 2023 and 2022, respectively (in US Dollars):

Net cash provided by Financing Activities	51,000	180,000

On March 6, 2023 our majority owned subsidiary, Cannovation and S.R. Accord Ltd., an Israeli company (“Lender”), entered into an 18-month credit facility agreement (the “Credit Facility”) pursuant to which Lender has committed to fund Cannovation in an aggregate amount of 3,000,000 NIS (approximately \$857,000) as needed. At the time of each draw down, Cannovation and Lender will determine the repayment of the loan. All amounts drawn under the Credit Facility will bear interest at a monthly rate of 1.7% and will be due by no later than September 2024. Cannovation has the right to pre-pay the entire amount outstanding under the Credit Facility at any time. As security for any loans under the Credit Facility, Cannovation granted Lender a first priority lien on its rights to the 125,000 sq ft (11,687 sqm) of industrial land in Yerucham, a city in southern Israel which Cannovation acquired in February of 2022 (the “Premises”) to build the Green Vision Center Israel with the support of the government of Israel. The lien will become effective only if Cannovation utilizes the Credit Facility. If the market value of the Premises is less than the amount outstanding under the Credit Facility, then Lender will be entitled to additional security on such terms and conditions as the parties may agree.

On August 1, 2023, the board of directors of Cannovation, the Company majority owned subsidiary, authorized a draw down under the previously disclosed credit facility with S.R. Accord Ltd. in the approximate amount of approximately \$120,000 to be utilized for the company operations. As required under the credit facility, Cannovation's shareholders gave guarantees and each of Ms. Elharar Soffer, the Company's CEO and a director, and Ilan Ben Ishay, a director of Cannovation, gave personal guarantees, for the drawdown. In addition, as required under the credit facility, Cannovation granted a security interest on Cannovation's rights under the development agreement with the Israel Lands Authority with respect to land in Yerucahm, in Southern Israel. As of the date of this report, the draw down request is being processed

On January 29, 2023, the holders of the convertible loans issued under the Convertible Loan Agreement agreed to extend to May 31, 2024 the maturity date thereof of such loans and further agreed that upon a public offering of our securities, our management is authorized to effect in connection with a listing of the Company's stock on a U.S. National Securities Exchange, at our sole discretion, a conversion into shares of our common stock of all or part of such outstanding loans at a rate equal to the public offering price of the common stock under any such offering

Based on the Company's current cash balances and the access to the Credit Facility described above, the Company believes that it has sufficient funds for its plans for the next twelve months from the issuance of these financial statements. As the Company is embarking on its activities as detailed herein, it is incurring losses. It cannot determine with reasonable certainty when and if it will have sustainable profits.

I, Ilanit Halperin, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Citrine Global, Corp.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's Board of Directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
